

# Environmental Policy

Scope Group is committed to protecting the environment through best practices and also continually improving environmental performance through education and demolition operations.

Our company commitment is to:

- 1 Develop and drive environmentally responsible policies and systems to ensure pollution prevention and minimal environmental impact.
- 2 Minimise waste by recycling wherever possible and continue to improve performance to maximise recycling opportunities.
- 3 Measure recycling and waste performance and document to verify effectiveness of systems.
- 4 Dispose of contaminated waste including asbestos in a manner compliant with current legislation.
- 5 Minimise visual, noise and other impacts on the local environment during our operations as far as is reasonably practical.
- 6 Encourage environmental responsibility with all company personnel, contractors and clients through induction, education and training.
- 7 Wherever possible reduce harmful emissions by ensuring that all plant and equipment is well maintained and fuel efficient, and avoid unnecessary travelling.
- 8 Set targets and objectives to measure, manage and improve performance.
- 9 Train our people to identify environmental risks and opportunities to improve our performance.
10. Work closely with our subcontractors and suppliers to ensure they meet our expectations.

All company personnel operate under this policy and are encouraged to contribute to the improvement of environmental management.

Greg Davies
